Abstract

A one-paragraph abstract written of maximum 200 words in an impersonal form indicating the aims of the work, the main results and conclusions should be given and clearly set off from the text (Times New Roman, 12 pt, normal, justified).

Keywords: word 1, word 2, word 3...max 5

Introduction- should include the aim of the research and a concise description of background information and related studies directly connected to the paper.

Experimental- gives the details of the methodology used, described in sufficient detail to enable experienced persons to repeat them. Standard procedures should be referenced and only modifications described in detail. For the proceeding in form of reviews, types of review methodologies should be described.

Results and Discussion- should include concisely presented results and their significance discussed and compared to relevant literature data.

Conclusion- briefly summarizes the principal conclusions, answering the defined aims of study.

Author contributions- for the proceeding with several authors, short paragraph which describes specific contribution of each author. It should include statements: “Conceptualization, X.X. and Y.Y.; methodology, X.X.; investigation, X.X.; writing—original draft preparation, X.X.; writing—review and editing, X.X.; visualization, X.X.; supervision, X.X.; All authors have read and agreed to the published version of the proceeding. **Authorship should be limited only to those who have made significant contribution to the overall study.**

Funding: For the proceedings that received any kind of financial support use the phrase: “This research was funded by NAME OF FUNDER, grant number XXX”. If the work did not received fundings it should put a statement: "This work did not receive funding".

Informed Consent Statement: optional; use the phrases: “Informed consent was obtained from all subjects involved in the study.” or “Patient consent was waived due to REASON (please provide a detailed justification).” or “Not applicable” for studies not involving humans.

Acknowledgments: optional; in this section all who made contributions, but are not listed as authors or in funding section, can be mentioned. This can include administrative or technical support, or donations in kind (e.g., materials used for experiments).

Conflicts of Interest: declare conflict of interest or put a statement: “The authors declare no conflicts of interest.”

References: list the used references, max. 15
